Dollars and sense about services

Get the best your money can buy—when you hire a lawyer, or need help with your income taxes, or shop for an auto mechanic you can trust. Making the right decision about services requires the same kind of careful shopping techniques used by the wise consumer when deciding on a car or washing machine. This revised edition of *Guide to Consumer Services* shows you how to get your money's worth for a broad range of professional, financial, and other services. It includes what you need to know to evaluate and compare many of the services you use.

This 381-page book gives you CU's advice on choosing a doctor, a dentist, a hospital, a discount stockbroker—or where to get a loan. It tells you how to buy eyeglasses or select a hearing aid. And it can help you cope with a troublesome landlord or with closing costs on your house, an unfair tax assessment, and more.

Guide to Consumer Services can save you time, money, and aggravation. Based on articles from Consumer Reports, this book is a good way to get the kind of service you deserve from the services you depend on.
